TRANSPONDER BYPASS MODULE FOR KIA

WIRING / CONNECTION GUIDE

You must have all keys available.

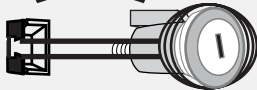

You will need the KIA SCAN TOOL and the vehicle access code.

IMPORTANT : The PATS KIA 1 can only be programmed once. Once the PATS KIA 1 is programmed, it can't be programmed or used on any other vehicle.

START HERE

INSTALLATION AND PROGRAMMING INSTRUCTIONS

1

Connector 1 (Black):
Make 3 to 4 loops around the ignition barrel.
(Secure the wire with tie-wrap.)

2

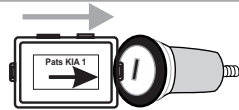

Connector 2 (White):
Connect the red wire to 12V constant.
Connect the black wire to "Ground out when running".

3

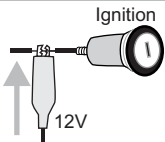

Hook up the SCAN TOOL.
Follow instructions on SCAN TOOL display for keys programming procedure (teaching procedure).

5

Place the PATS KIA 1 transponder (show on Pats label) close and toward the front of the ignition barrel for the next 2 steps.

6

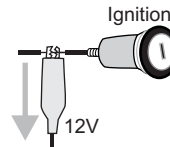

With the help of a jumper wire, power up vehicle ignition.

7

Follow instructions on SCAN TOOL.

8

Remove jumper wire

9

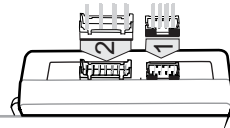

Remove PATS-KIA 1 module.

10

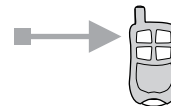

Make sure all other keys still working.

11

Connect PATS KIA 1 module.

12

Start vehicle with remote starter.
The module PATS KIA 1 is now programmed.
